

The State of the Planet and community

Extinct this week?

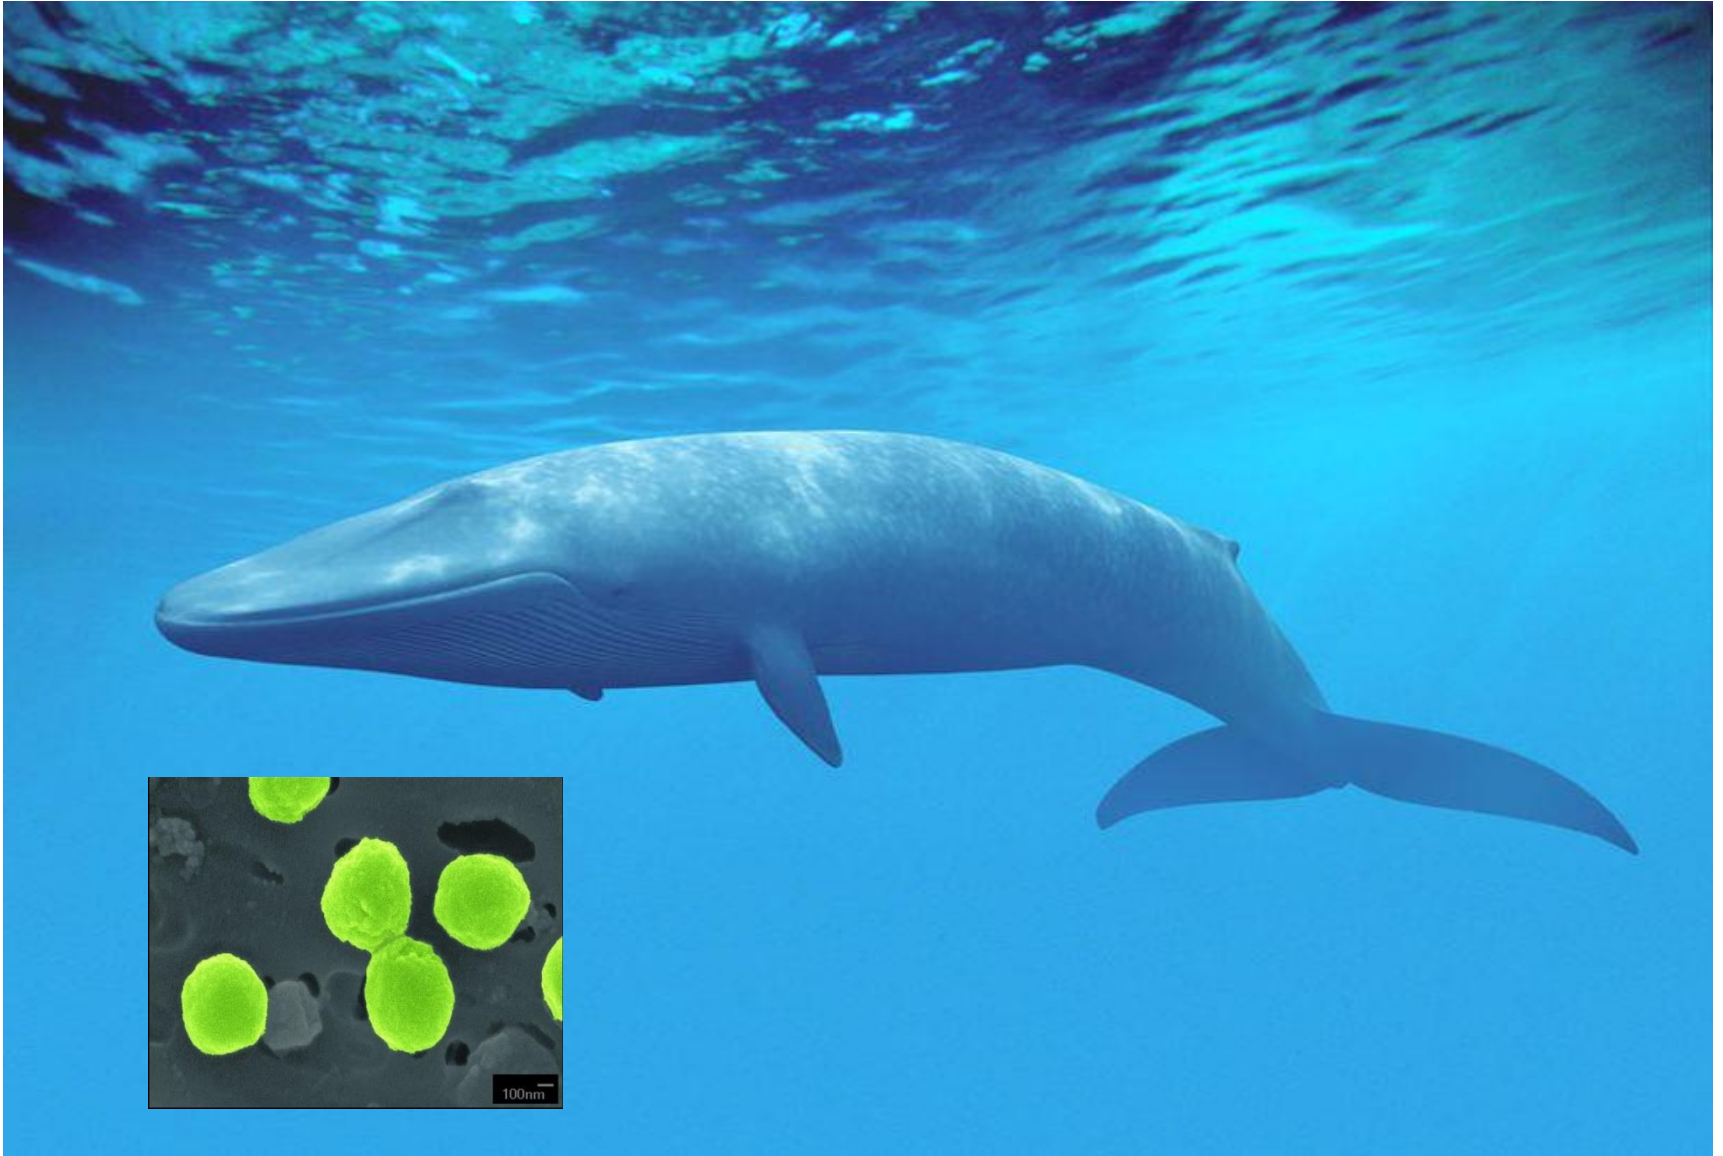

UK
A ROCHA
Caring for God's Earth

Extinct in the next few years?

Extinct in our life time?

Hope versus reality.....is it too late to act?

- Direct community action
- Prayer
- Local means me!
- Oikos: making home and being proud of it
- Proximate hope
- Join in and join up
- 1 Cor 13:7 *Love for our planet* should always trust, always hope and always persevere.

And when we work
together.....rejoice!

Clive Mear/Tearfund & The Climate Coalition

For we only have one planet

**This is planet earth
and the moon**

**Taken by the Cassini
space craft**

**July 19th, 2013,
12.00pm**

**898.414 million miles
from home**

So what will you do differently
when you wake up tomorrow
morning?
