

# Feldon Forest Farm

A Soil Association certified organic farm

In

Warwickshire

Shetland cattle, a hardy native breed

A very young Shetland calf enjoying the sun

Castlemilk Moorit sheep, another hardy native breed, also very attractive

One of our meadows in late Spring

Another of our meadows in early Summer

Bee orchids in one of our meadows

Another of our meadows cut for hay in late Summer

Late hay baled with Autumn mist in the valley

The irrigation reservoir with Orchard,  
woodland and vegetables

Apple blossom in the orchard

A block of native woodland with newly laid hedge in foreground

Agroforestry as the backdrop to our electric car

## East facing solar panels on the hay barn roof

- In total we have about 20KWp of solar panels producing more than enough energy for the whole farm, including running an electric car

# Solar Pv on a South facing barn roof with Solar thermal panels for water heating

- The chimney is on the roof of our earth sheltered farmhouse

# The earth sheltered farmhouse

- Sheep grazing the roof

The end
